

# A Community of Learners:

## Establishing Norms and Protocols in Remote/Hybrid Learning

### Norms

- Represent collective agreements
- Are co-created between teachers and students
- Narrow the core values and behaviors of a learning community

Take a moment to envision what you want interactions to look, sound, and feel like as students are working independently, as a large group, or in smaller groups.

	I want to see...	I want to hear...	I want to feel...
When I am working independently...			
When I am working in a large group...			
When I am working in a small group...
