

# NEW SCHOOL YEAR PLANNING TEMPLATE

The ❤️ of this session focuses on the really great things that your district implemented during the 2020-2021 school year and what you don't want to lose or stop doing. It's easy to go back to traditional ways, so before reverting back, what is at least one "non-traditional" component or initiative that went well and is something that you want to make a plan to keep. Use this template to start building a more concrete plan. The left are suggestions for the plan; however, tweak and make this template work for you!

<b>Area of Focus, component, and/or initiative that you want to keep (i.e. virtual open house, consistent tech tips, virtual faculty meetings, SEL outreach, etc.)</b>	
<b>After trying the component last year, is there anything that you will tweak or change about it for this coming 2021-2022 school year?</b>	
<b>Steps for implementation (i.e. communication, timeline, etc.)</b>	
<b>Resources, templates, feedback, flyer, etc. that you plan to use for implementation.</b>
